Staphylococcus aureus	<	100 cfu/g
Escherichia coli	<	1.000 cfu/g
Sulfite reducing clostridias	<	1.000 cfu/g
Salmonella	I	not detectable/25g

Stated values can only be assured within the parameters of statistical reliability of drawing samples as per DIN EN ISO 948/2009.

The product corresponds to the EU law and the German food legislation in its relevant versions.

We confirm that neither in our plant nor at our instance the products delivered by us are irradiated, treated with gas or genetically modified. As a basic principle we refuse irradiated, gased or genetically modified goods from our supplier.

As spices are agricultural products of which properties and condition depend on weather and environmental conditions, slight quality differences of here described chracteristics are possible.

The above mentioned values are average values of this type of raw material, ascertained over a longer period.
